

The Austin History Center is pleased that the early Chamber of Commerce records from the Walter Long Estate are to become a permanent part of its holdings. The AHC staff will do everything within its power to conserve as much of the original and informational content of the collection as possible. However, because of the very fragile physical condition of most of the collection (resulting from the 1981 flooding) it may not be possible to save some of the *original* materials. This has been discussed with Dr. Orum and he is in agreement with AHC proposals. If you have any questions concerning this, please call Dr. Orum at his office, or Audray Bateman Randle or Linda Zezulka at the Austin History Center, 472-5433, ext. 280.

→ In such situations, the materials will be photocopied so that the information may be preserved.
